

# SKETCHES FROM THE HEART OF A TEXAS ARTIST

THE 2017 CURATED COLLECTION

FINE ART AND STYLE FOR YOUR  
ADVENTUROUS HEART™

BELIZEAN PALM BREEZE  
SALT-SCRUBBED WATERCOLOR ON PAPER  
21" X 28"  
\$1200

I curated this collection of sculptural jewelry to inspire you to create your own hero's journey and live with an adventurous heart. Each piece of jewelry is a unique work of art, hand crafted at Mpulse Studio Headquarters: the Adventurous Heart Bungalow. Using 14K goldfill, a combination of precious and semi precious stones, each piece serves as an illustration for my novel, *Sketches from the Heart of a Texas Artist: the Story of Mona Lamar*. This novel tells a story of a woman on an odyssey toward wholeness in the wake of pain. It brings to life the journey we all embark upon as we choose to live in light as unique, empowered individuals.

This catalog showcases my Exclusive 2017 Trunk Show Collection. I've included images of my watercolors that illustrate my novel as well as excerpts to offer you a glimpse into the *Story of Mona Lamar*. My hope is that this collection will awaken your soul and inspire you to live with purpose and passion.

From my adventurous heart to yours,

XOXO

Margaret Elizabeth Hulse

# THE SIGNATURE COLLECTION

This collection illustrates an inherent beauty that can be found in light. This simple, delicate golden chain gently rests against your skin and subtly sparkles as light shines upon it. Adorned with Mpulse Studio's Signature Logo disk, this collection symbolizes the most prevalent theme in the novel, *Sketches from the Heart of a Texas Artist*: the significance of living in light.

# WILD HEARTS CAN'T BE BROKEN COLLECTION

This collection illustrates raw strength and empowerment. This illustrates we women, tough as nails, unafraid to stand up to our darkest shadows. It represents the part of our soul that intuitively drives us past our fears and into a place of powerful grace.

*I kept my nickel-plated Smith and Wesson tucked away in my Louis Vuitton messenger bag... next to my sketchbook. It was a hot day in the wild wild west Dallas Design District. I stood outside a gallery door, staring down an empty street. A pair of vultures rode lazy thermals against a blue-domed sky.*

# THE MAYAN CONNECTION

Inherent beauty arises from the act of surrender. We often try to control too many aspects of our lives. This collection not only uses the Belizean rainforest as a metaphor for our connection with God, it illustrates the feelings of passion and bliss that can be found when we're least expecting them.

*I stepped off the boat and ventured down the pier. A man sat at the end, whittling what looked like some kind of Mayan figurine. He was tan and sinewy. Head shaven, he had handsome, chiseled features... A soft earthy scent lingered in his skin as the island breeze swept sprays of salt water across our bodies. He gently kissed on the top of my head and pulled me closer.*

# THE NEW ORLEANS SPIRIT COLLECTION

This mystical collection tells the story of our spirit that exists somewhere between the past, present, and future, hidden within the moonlit cast shadows of the New Orleans French Quarter. It paints a magical imagery of a soul renewed and filled with love and understanding that, even in the presence of our darkest shadows, we're never alone. As we accept our faith, we'll never be forsaken.

*Standing at the corner of Decatur and Esplanade, my head began to spin. The setting sun cast fleur de lis shaped shadows as it poured through the cast iron balconies of the Quarter. But even as the sun fell closer to the horizon, the hot, damp, New Orleans air continued to permeate my soul. I pressed my Louis Vuitton messenger bag close against my body with one hand and clutched my plastic cup of wine with the other, then started weaving through the dense streets as I made my way toward a glimmer of comfort. I closed my eyes and heard the deep, booming melodies of a brass band a few street over. I was getting closer.*

# THE ENCHANTED HEART COLLECTION

Atop a pink granite dome that majestically adorns the landscape of the Texas Hill country, this collection illustrates the mysterious spirit world of Enchanted Rock. This collection represents the apex of our journey, the moment when we know we've conquered the fears that lie in our shadows and gives us the strength to approach each summit of our lives with a confidence greater than we could ever image.

*I took a deep breath and accepted all of the beauty that surrounded me. As I approached the summit, I looked out upon the Texas hill country. I was as close to the heavens as I could be.*

# THE LOVE NECKLACE

\$125

With this necklace near our hearts, we can run our fingers along the delicate gold letters that spell L-O-V-E and know that no matter where we are, mentally or physically, we are loved. With each purchase of this necklace, a LOVE necklace is donated to a woman who is accepting care from the Genesis Women's Shelter so that she may have this reminder that she is loved.

# ABOUT THE DESIGNER

Mpulse Studio is a creative platform to inspire women to create their own hero's journey and live with an adventurous heart. In the wake of sexual abuse, author and artist, Margaret Elizabeth Hulse began writing her first novel, *Sketches from the Heart of a Texas Artist*, as a cathartic exercise to help her move through the pain. Her novel quickly became an illustration of the journey we're all faced to explore after we've endured a traumatic event.

As a painter, writer, and jewelry designer, Margaret Elizabeth uses her creative trifecta to empower women and inspire them to venture out from their shadows into a place of strength and beauty.

Just as her stories are set between Texas, the Caribbean, and New Orleans, her body, mind, and spirit exist in these places as well.

As her creative mentor, Georgia O'Keeffe, was drawn to the desert in New Mexico, Margaret Elizabeth finds beauty in the endless turquoise waters of the Caribbean, the vast landscape and vegetation that makes Texas so alluring and the rich images of the French Quarter, fused with the mossy swamp lands of the Atchafalaya Basin. From the stories hidden in the depths of these settings, she has committed her creative vision to passionately share truths that can be connected to universally.

Margaret Elizabeth is committed to working within the community to serve and empower women. Mpulse Studio currently collaborates with Genesis Women's Shelter through her "LOVE Connection" campaign, which provides inspired pieces of jewelry to women receiving the shelter's care.

### CUSTOMER SATISFACTION GUARANTEE

Mpulse Studio strives to ensure customer satisfaction. We use 14k goldfill and precious and semi precious stones and minerals. Let's face it, sometimes things break. If you ever have any problems with your jewelry, Mpulse Studio will repair or replace any damaged pieces.

### WHAT IS GOLDFILL?

Goldfill has a thick sheet of gold applied to a base metal, 50 to 100,000 times thicker than gold plating, and in order for something to be considered Gold Filled, it must have a gold content of at least 1/20th the total weight of the item.

### HOW TO CARE FOR GOLDFILL JEWELRY

Use only warm water and a mild soap-based detergent to clean your jewelry. Soak your jewelry pieces for no more than a minute in the water. If you have to scrub, use a soft baby toothbrush and be gentle. Never use tissue or any other paper-based material to clean the pieces.
